Small Dam Required?: No

OTHER COMMENTS*****

Several early filings for water rights by various individuals were made on Holmes Creek. Over the years, all became a part of Kaysville Irrigation Company (South Fork Holmes Creek Irrigation Company prior to 1898), and all have yielded their rights for stock in the company. There have been no conflicting rights on the stream since construction of the dam in 1914.

Holmes Creek Water is now supplemented by purchase of water from Weber Basin Water Conservancy District, Davis and Weber Canal Company and Layton-Kaysville Ditch Company. Approximately 1500 acres receive full irrigation from the Kaysville Irrigation Company.

*Entire flows of Holmes Creek.

Kaysville Reservoir was originally Simmons Reservoir.
